[NRC-2022-0126]

Monthly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

AGENCY: Nuclear Regulatory Commission.

ACTION: Monthly notice.

SUMMARY: Pursuant to section 189.a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular monthly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration (NSHC), notwithstanding the pendency before the Commission of a request for a hearing from any person. This monthly notice includes all amendments issued, or proposed to be issued, from April 29, 2022, to May 25, 2022. The last monthly notice was published on May 17, 2022.

DATES: Comments must be filed by [INSERT DATE 30 DAYS AFTER DATE OF

PUBLICATION IN THE FEDERAL REGISTER]. A request for a hearing or petitions for

leave to intervene must be filed by [INSERT DATE 60 DAYS AFTER DATE OF

PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the **Federal rulemaking** website:

• Federal rulemaking website: Go to https://www.regulations.gov and search for Docket ID NRC-2022-0126. Address questions about Docket IDs in Regulations.gov to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For

technical questions, contact the individual listed in the "For Further Information Contact" section of this document.

Mail comments to: Office of Administration, Mail Stop: TWFN-7-A60M,
 U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Program
 Management, Announcements and Editing Staff.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the SUPPLEMENTARY INFORMATION section of this document.

FOR FURTHER INFORMATION CONTACT: Paula Blechman, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-2242, email: Paula.Blechman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID **NRC-2022-0126**, facility name, unit number(s), docket number(s), application date, and subject when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC-2022-0126.
- NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

• NRC's PDR: You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the **Federal rulemaking website** (https://www.regulations.gov). Please include Docket ID **NRC-2022-0126**, facility name, unit number(s), docket number(s), application date, and subject, in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at https://www.regulations.gov as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Notice of Consideration of Issuance of Amendments to Facility Operating

Licenses and Combined Licenses and Proposed No Significant Hazards

Consideration Determination

For the facility-specific amendment requests shown below, the Commission finds that the licensees' analyses provided, consistent with section 50.91 of title 10 of *the Code of Federal Regulations* (10 CFR), are sufficient to support the proposed

determinations that these amendment requests involve NSHC. Under the Commission's regulations in 10 CFR 50.92, operation of the facilities in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The Commission is seeking public comments on these proposed determinations.

Any comments received within 30 days after the date of publication of this notice will be considered in making any final determinations.

Normally, the Commission will not issue the amendments until the expiration of 60 days after the date of publication of this notice. The Commission may issue any of these license amendments before expiration of the 60-day period provided that its final determination is that the amendment involves NSHC. In addition, the Commission may issue any of these amendments prior to the expiration of the 30-day comment period if circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. If the Commission takes action on any of these amendments prior to the expiration of either the comment period or the notice period, it will publish in the *Federal Register* a notice of issuance. If the Commission makes a final NSHC determination for any of these amendments, any hearing will take place after issuance. The Commission expects that the need to take action on any amendment before 60 days have elapsed will occur very infrequently.

A. Opportunity to Request a Hearing and Petition for Leave to Intervene

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by any of these actions may file a request for a hearing and petition for leave to intervene (petition) with respect to that action. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The

NRC's regulations are accessible electronically from the NRC Library on the NRC's website at https://www.nrc.gov/reading-rm/doc-collections/cfr. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) the name, address, and telephone number of the petitioner; (2) the nature of the petitioner's right to be made a party to the proceeding; (3) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner's interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions that the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion that support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one that, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(f) with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party's

admitted contentions, including the opportunity to present evidence, consistent with the NRC's regulations, policies, and procedures.

Petitions must be filed no later than 60 days from the date of publication of this notice. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document.

If a hearing is requested, and the Commission has not made a final determination on the issue of NSHC, the Commission will make a final determination on the issue of NSHC. The final determination will serve to establish when the hearing is held. If the final determination is that the amendment request involves NSHC, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing would take place after issuance of the amendment. If the final determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of the amendment unless the Commission finds an imminent danger to the health or safety of the public, in which case it will issue an appropriate order or rule under 10 CFR part 2.

A State, local governmental body, Federally recognized Indian Tribe, or agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h)(1). The petition should state the nature and extent of the petitioner's interest in the proceeding. The petition should be submitted to the Commission no later than 60 days from the date of publication of this notice. The petition must be filed in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document, and should meet the requirements for petitions set forth in this section, except that under 10 CFR 2.309(h)(2) a State, local governmental body, or Federally recognized Indian Tribe, or agency thereof does not need to address the standing

requirements in 10 CFR 2.309(d) if the facility is located within its boundaries.

Alternatively, a State, local governmental body, Federally recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

If a petition is submitted, any person who is not a party to the proceeding and is not affiliated with or represented by a party may, at the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of his or her position on the issues but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Details regarding the opportunity to make a limited appearance will be provided by the presiding officer if such sessions are scheduled.

B. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the Guidance for Electronic Submissions to the NRC (ADAMS Accession No. ML13031A056) and on the NRC's public website at https://www.nrc.gov/site-help/e-submittals.html.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any

proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website at https://www.nrc.gov/site-help/e-submittals/getting-started.html. After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable Document Format. Guidance on submissions is available on the NRC's public website at https://www.nrc.gov/site-help/electronic-sub-refmat.html. A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at https://www.nrc.gov/site-help/e-submittals.html, by email to MSHD.Resource@nrc.gov, or by a toll-free call at 1-866-672-7640. The NRC Electronic Filing Help Desk is available between 9:00 a.m. and 6:00p.m., ET, Monday through Friday, excluding Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at https://adams.nrc.gov/ehd, unless excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click "cancel" when the link requests certificates and you will be automatically directed to the NRC's electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their fillings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

The table below provides the plant name, docket number, date of application, ADAMS accession number, and location in the application of the licensees' proposed NSHC determinations. For further details with respect to these license amendment applications, see the applications for amendment, which are available for public inspection in ADAMS. For additional direction on accessing information related to this document, see the "Obtaining Information and Submitting Comments" section of this document.

License Amendment Request(s)

Arizona Public Service Company, et al; P Units 1, 2, and 3; Maricopa County, AZ	alo Verde Nuclear Generating Station,
Docket No(s).	50-528, 50-529, 50-530
Application date	April 26, 2022
ADAMS Accession No.	ML22116A220
Location in Application of NSHC	Pages 3-4 of the Enclosure
Brief Description of Amendment(s)	The proposed amendments would revise Technical Specifications (TSs) to adopt Technical Specifications Task Force (TSTF) Traveler TSTF-487-A, Revision 1, "Relocate DNB [Departure from Nucleate Boiling] Parameters to the COLR [Core Operating Limits Report]," for Palo Verde Nuclear Generating Station, Units 1, 2, and 3. Specifically, the proposed amendment would revise the following: delete reference to Limiting Condition for Operation (LCO) 3.4.1.b in TS 3.1.11, "Special Test Exceptions (STE) – Reactivity Coefficient Testing," LCO 3.1.11; remove the specific limits specified in TS 3.4.1, "RCS [Reactor Coolant System] Pressure, Temperature, and Flow Departure from Nucleate Boiling (DNB) Limits," LCO 3.4.1, and to state that the limits are specified in the COLR; revise surveillance requirements in TS 3.4.1 to remove the specific limits and to state that the limits are specified in the COLR; delete figure 3.4.1-1, "Reactor Coolant Cold Leg Temperature vs. [versus] Core Power Level"; modify TS 5.6.5, "Core Operating Limits Report (COLR)," paragraph "a" to add the methodology requirements for calculating the DNB numeric limits in the COLR; and modify TS 5.6.5, paragraph "c," to clarify that the COLR limits must be determined assuming that the plant is capable of operating at the rated thermal power as specified in TS Section 1.1, "Definitions." The availability of this TS improvement was announced in the Federal Register (FR) on June 5, 2007 (72 FR 31108) as part of the consolidated line item improvement process.

Constellation Energy Generation, LLC; Braidwood Station, Units 1 and 2, Will County, IL; Byron Station, Unit Nos. 1 and 2, Ogle County, IL	
Docket No(s).	50-454, 50-455, 50-456, 50-457
\ /	<u> </u>

Application date	April 21, 2022
ADAMS Accession No.	ML22111A300
Location in Application of NSHC	Pages 3 and 4 of Attachment 1
Brief Description of Amendment(s)	The proposed amendments would revise the license and Technical Specification (TS) 3.8.3, "Diesel Fuel Oil," to adopt Technical Specifications Task Force (TSTF) Traveler TSTF-501, Revision 1, "Relocate Stored Fuel Oil and Lube Oil Volume Values to Licensee Control." Specifically, the proposed amendments would relocate the current stored diesel fuel oil numerical volume requirements from the TSs to the TS Bases.
Proposed Determination	NSHC
Name of Attorney for Licensee, Mailing Address	Jason Zorn, Associate General Counsel, Constellation Energy Generation, 101 Constitution Ave, NW, Washington, DC 20001
, ,	Joel Wiebe, 301-415-6606
Constellation Energy Generation, LLC; Li 2; Montgomery County, PA	imerick Generating Station, Units 1 and
Docket No(s).	50-352, 50-353
Application date	February 24, 2022
ADAMS Accession No.	ML22055A600
Location in Application of NSHC	Pages 5-7 of Attachment 1
Brief Description of Amendment(s)	The proposed amendments would change Technical Specification Table 3.3.2-1, "Isolation Actuation Instrumentation," Trip Function 1.g for Main Steam Line Isolation. In particular, the proposed change would increase the minimum operable channels per trip system for the "Turbine Enclosure – Main Steam Line Tunnel Temperature – High" trip function from 14 channels per trip system to 16 channels per trip system. This change would correct an administrative error.
Proposed Determination	NSHC
Name of Attorney for Licensee, Mailing Address	Jason Zorn, Associate General Counsel, Constellation Energy Generation, 101 Constitution Ave, NW, Washington, DC 20001
NRC Project Manager, Telephone Number	V. Sreenivas, 301-415-2597

Docket No(s).	50-352, 50-353
Application date	February 24, 2022
ADAMS Accession No.	ML22055A601
Location in Application of NSHC	Pages 8-9 of Attachment 1
Brief Description of Amendment(s)	The proposed amendments would change Technical Specification (TS) 3.3.7.4,

	"Remote Shutdown System Instrumentation and Controls." This would increase the allowed outage time for inoperable remote shutdown system components to a time that is more consistent with their safety significance. This change would also delete Table 3.3.7.4-1, "Remote Shutdown System Instrumentation and Controls," to be relocated to the Technical Requirements Manual. The proposed changes would make the Limerick Technical System requirements consistent with NUREG-1433, "Standard Technical Specifications, General Electric BWR [Boiling Water Reactor]/4 Plants," TS 3.3.3.2, "Remote Shutdown System."

III. Notice of Issuance of Amendments to Facility Operating Licenses and Combined Licenses

During the period since publication of the last monthly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or combined license, as applicable, proposed NSHC determination, and opportunity for a hearing in connection with these actions, was published in the *Federal Register* as indicated in the safety evaluation for each amendment.

Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision

in 10 CFR 51.22(b) and has made a determination based on that assessment, it is so indicated in the safety evaluation for the amendment.

For further details with respect to each action, see the amendment and associated documents such as the Commission's letter and safety evaluation, which may be obtained using the ADAMS accession numbers indicated in the table below. The safety evaluation will provide the ADAMS accession numbers for the application for amendment and the *Federal Register* citation for any environmental assessment. All of these items can be accessed as described in the "Obtaining Information and Submitting Comments" section of this document.

<u>License Amendment Issuance(s)</u>

Constellation Energy Generation, LLC; Braidwood Station, Units 1 and 2, Will County, IL; Byron Station, Unit Nos. 1 and 2, Ogle County, IL; Constellation Energy Generation, LLC; Clinton Power Station, Unit No. 1; DeWitt County, IL	
Docket No(s).	50-454, 50-455, 50-456, 50-457, 50-461
Amendment Date	May 12, 2022
ADAMS Accession No.	ML22095A270
Amendment No(s).	227 (Braidwood Unit 1), 227 (Braidwood Unit 2), 229 (Byron Unit 1), 229 (Byron Unit 2), and 245 (Clinton)
Brief Description of Amendment(s)	The amendments revised technical specifications (TSs) to add explanatory text to the Safety Function Determination Program in TS 5.5.15 (Braidwood Station and Byron Station) and TS 5.5.10 (Clinton Power Station) clarifying the "appropriate limiting condition for operation for loss of function," and that consideration does not have to be made for a loss of power in determining loss of function.
Public Comments Received as to Proposed NSHC (Yes/No)	No

Docket No(s).	50-397
Amendment Date	May 9, 2022
ADAMS Accession No.	ML22098A064
Amendment No(s).	267
Brief Description of Amendment(s)	The amendment revised the average power range monitor (APRM) requirements in the technical specifications (TSs) for Columbia Generating Station. Specifically, the amendment altered Surveillance Requirement 3.3.1.1.2 of TS 3.3.1.1, "Reactor Protection System (RPS) Instrumentation," to verify that calculated (i.e., calorimetric heat balance) power is no more than 2 percent greater than the APRM channel output. This included a variation to allow for a 2-hour period for adjustment of the APRM output gain to restore compliance with the surveillance requirement limit before entering the associated conditions and required actions.

Public Comments Received as to Proposed NSHC (Yes/No) Tennessee Valley Authority; Watts Bar Nuclear Plant, Units 1 and 2; Rhea County, TN Docket No(s). 50-390, 50-391 Amendment Date Mu 22014A206	Docket No(s).	50-321, 50-366	
Amendment No(s). 315 (Unit 1) and 260 (Unit 2) The amendments revised Edwin I. Hatch Nuclear Plant, Units 1 and 2, Technical Specification (TS) 3.3.6.1, "Primary Containment Isolation Instrumentation," Table 3.3.6.1-1, to eliminate the requirement for automatic main steam line isolation on high turbine building area temperature (Function 1.f). In lieu of automatic isolation, a new technical specification, TS 3.7.10, "Turbine Building (TB) Maximum Area Temperature," is added that requires monitoring the turbine building maximum area temperature and a plant shut down if excessive main steam line leakage is detected. Public Comments Received as to Proposed NSHC (Yes/No) Tennessee Valley Authority; Watts Bar Nuclear Plant, Units 1 and 2; Rhea County, TN Docket No(s). 50-390, 50-391 Amendment Date ADAMS Accession No. ML22014A206	Amendment Date	May 20, 2022	
The amendments revised Edwin I. Tennessee Valley Authority; Watts Bar Nuclear Plant, Units 1 and 2; Rhea County, TN Docket No(s). 50-390, 50-391 Amendment Date May 4, 2022 ADAMS Accession No. ML22014A206	Brief Description of Amendment(s)	Nuclear Plant, Units 1 and 2, Technical Specification (TS) 3.3.6.1, "Primary Containment Isolation Instrumentation," Table 3.3.6.1-1, to eliminate the requirement for automatic main steam line isolation on high turbine building area temperature (Function 1.f). In lieu of automatic isolation, a new technical specification, TS 3.7.10, "Turbine Building (TB) Maximum Area Temperature," is added that requires monitoring the turbine building maximum area temperature and a plant shut down if excessive main steam line leakage is detected.	
TN Docket No(s). 50-390, 50-391 Amendment Date May 4, 2022 ADAMS Accession No. ML22014A206	Public Comments Received as to Proposed NSHC (Yes/No)	No	
Amendment Date May 4, 2022 ADAMS Accession No. ML22014A206	Tennessee Valley Authority; Watts Bar Nuclear Plant, Units 1 and 2; Rhea County, TN		
ADAMS Accession No. ML22014A206	Docket No(s).	50-390, 50-391	
	Amendment Date	May 4, 2022	
Amendment No(s). 152 (Unit 1) and 61 (Unit 2)	ADAMS Accession No.	ML22014A206	
	Amendment No(s).	152 (Unit 1) and 61 (Unit 2)	

Brief Description of Amendment(s)	The amendments revised the Watts Bar Nuclear Plant, Units 1 and 2, Technical Specification (TS) 3.3.6, "Containment Vent Isolation Instrumentation," and TS 3.3.7, "Control Room Emergency Ventilation System (CREVS) Actuation Instrumentation," to delete a redundant unit of measure associated with the trip setpoint for containment purge exhaust and control room air intake radiation monitors. The amendments also corrected a typographical error in abbreviation of the associated unit of measure.	
Public Comments Received as to Proposed NSHC (Yes/No)	No	
Wolf Creek Nuclear Operating Corporation; Wolf Creek Generating Station, Unit 1; Coffey County, KS		
Docket No(s).	50-482	
Amendment Date	May 18, 2022	
ADAMS Accession No.	ML22069A056	
Amendment No(s).	232	
Brief Description of Amendment(s)	The amendment revised the Wolf Creek Radiological Emergency Response Plan to change the on-shift staffing composition.	
Public Comments Received as to Proposed NSHC (Yes/No)	No	

Dated: June 6, 2022.

For the Nuclear Regulatory Commission.

Bo M. Pham,

Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.
